Body

Document Body

Damonica,
Please see attached for the C6 Resrouces, LLC draft UIC permit. Please excuse the poor quality of the scan. I will convert the document to a clean PDF on Monday and will send that version to you as well. As discussed on our last phone call, we expect that Shell's internal review of the permit conditions will take somewhere in the range of 2-4 weeks. To expedite the review process, please prepare a single document outlining and explaining any suggestions, corrections or proposed edits that Shell would like to bring to our attention before the permit is released for Public Notice. If you have any questions about the permit conditions as written, please let me know.
